

TREATING OUR FAMILY OF PATIENTS, WITHOUT TRICKERY, SINCE 1976.

THIS NEWSLETTER IS DESIGNED TO CONVEY INFORMATION FOR YOU TO INVESTIGATE, AND IS NOT INTENDED AS MEDICAL ADVICE.

THERE'S SOME FUN THINGS FOR YOU TO INVESTIGATE AT THE END OF THE NEWSLETTER, BUT THE FOCUS OF THIS ISSUE IS SOMETHING REALLY *SCARY*-- THE MISINFORMATION BEING DISPENSED BY THE CENTERS FOR DISEASE CONTROL.

I AM NOT A CONSPIRACY THEORIST, ALTHOUGH IT'S HARD NOT TO BE IN THE FACE OF SOME OF THE ARTICLES THAT YOU'RE GOING TO BE EXPOSED TO HERE.

FIRST - EBOLA

My inquisitive nature after listening to the endless drivel from the talking heads on TV news always made me ask myself, "Does the CDC really know how Ebola is transmitted?"

A recent article I read, an interview with the former head of the CDC has led me to believe that they may just be wishing rather than truly knowing. If you are afraid of the truth, skip to the next article, otherwise, [click here](#), to read it.

As you may be aware, we have been a proponent of the use of ozone in the treatment of infections, not just in dentistry, but for many medical uses. Of course, Big Pharma doesn't want this research seeing the light of day. A group of my colleagues are currently introducing the use of Ozone in the treatment of Ebola, in Sierra Leone. If you want to read more, it's on my blog. [Link is here.](#)

VACCINES - MERKE PHARMA BEING SUED IN THREE DIFFERENT WHISTLE-BLOWER CASES

The vaccine manufacturer, Merke has been accused of fraudulently misleading the government, omitting or concealing and adulterating results. It was known that their MMR vaccine was causing high rates of Autism in African-American boys, and they covered the whole thing up. [Read more](#), if you dare! It concludes: "The [CDC still stands by its study](#) although Frank DeStefano, the CDC's Director of Immunization Safety and a co-author in the CDC study, also stated that [he plans to review his notes](#) with an eye to reanalyzing the data." **Do you want to be something scary for Halloween? Dress up as the**

CDC!

I know I've mentioned it before, but for those of you who haven't read about it, or want to learn more about why you can't sue a vaccine manufacturer in any courthouse in the US other than [VACCINE COURT](#), click on that link to see an excellent Powerpoint discussion of the manifest corruption of the entire situation. **Excellent, and Frightening!**

The last report issued in 2013 by the Department of Justice (Vaccine Court), for compensation made by the Health and Human Services for people injured or killed by vaccines, was released in December 2013, covering the period of 8/16/2013 through 11/15/2013. The report is available as a Power Point presentation [here](#).

There were 139 claims settled during this time period, with 70 of them being compensated. So, just over 50% of the claims filed for vaccine damages were compensated during this period.

Once again, the greatest percentage of damages compensated were for the influenza vaccine, and most of those were for Guillain-Barré Syndrome (GBS). Yet these facts, tucked away in a file on the Department of Health and Human Services website, are never reported in the mainstream media. So we will report them here. You can also read the report yourself in the [Power Point](#) file [here](#).

FRIGHTENING WHAT DENTAL BENEFITS COMPANIES ARE TRYING TO DO TO MOVE PATIENTS AWAY FROM QUALITY-ORIENTED PRACTICES LIKE OURS.

Dental Benefits (you might call it insurance) Companies are back to playing games again with corporate employees. There is a new entity in the Alphabet Soup of

insurance plans called a **DPO**.

It is a wolf in sheep's clothing. It is a way to force more people away from traditional dentistry (as we've practiced it for the past 39 years) into offices where they manage your care. The last thing anyone wants is non-dentists who work for insurance companies determining what type of treatment you need.

As always, our office will be happy to do a benefits analysis for you.

AND FINALLY, SOME TREATS -

[WORLDOMETER](#) - watch numbers spinning out of control for numbers of cigarettes smoked today!

[THE 3' PUTT](#) how many times did he try before he sank it?

[Dolphin Rescues Dog](#). - you don't need to listen, it's in Greek. Pictures say it all.

VIN NUMBER - WARNING

Here is **INFO** worth the price of your car....

WHAT WILL the car thieves THINK OF NEXT? The car thieves peer through the windshield of your car or vehicle, write down the VIN # from the label on the dash, go to the local car dealership and request a duplicate key based on the VIN #. You don't believe it? It IS that EASY. To avoid this from happening to you, simply put some dark tape (electrical tape, duct tape or medical tape) across the VIN Number Metal Label located on the dashboard.

By law, you cannot remove the VIN, but you CAN cover it so it can't be viewed through the windshield by a car thief. I urge you to forward this to your friends before some other car thief steals another car or truck.

PASS THIS INFORMATION ON TO ALL YOUR FAMILY AND FRIENDS NOW!!!!
